

Eligibility Requirements...

Eligibility requirements vary from program to program. However, EZMEDS USA has established some general guidelines to assist in determining eligibility.

Step 1:

Household income equal to or less than:

Persons in Family or Household	Annual Income
1	\$21,660
2	\$29,140
3	\$36,620
4	\$44,100
5	\$51,580
6	\$59,060
7	\$66,540
8	\$74,020

Step 2:

Rx Coverage Status:

- o No prescription drug coverage (public or private)
- o If you have insurance, if your prescription drug coverage has run out, or if your specific medication is not covered
- o You are enrolled in Medicare Part D, and have reached the "Coverage Gap" or "Donut Hole"

What Plan is best for you?

# of Prescriptions	Monthly Fee	1x Enrollment Fee	TOTAL
1 **	\$39.95	\$25.00	\$64.95
2-4	\$69.95	\$25.00	\$94.95
5-8	\$119.95	\$25.00	\$144.95
9-12	\$169.95	\$25.00	\$194.95

Client Savings:

Examples of savings experienced by EZMEDS USA clients:

Nobody should have to choose between buying groceries and paying for their medications. We can help

Is the cost of your patient's prescription medication causing them to experience financial hardship?

It doesn't have to be this way.

EZMEDS USA was created for the primary purpose of making the millions facing financial challenges in this country aware of **Patient Assistance Programs**, and to assist eligible patients who cannot afford their prescription medications due to limited income or other financial hardships.

When someone meets the eligibility criteria and are experiencing financial hardship with their prescription medications, **EZMEDS USA** helps them with worry-free, ongoing management of their prescription assistance needs.

So, how can EZ MEDS USA help?

For over 15 years, major pharmaceutical companies have been providing prescription medications to eligible individuals through **Patient Assistance Programs (P.A.P.)**. These programs assist eligible individuals who cannot afford their prescription medications due to limited income or other financial hardships.

The problem: There are few who know about these programs or understand the complicated application and approval process required to participate in a P.A.P.

The solution: EZMEDS USA. We are a patient advocacy company providing an easy, affordable solution to obtaining costly prescription medications. We offer a low-cost, **worry-free, full-service prescription assistance program** designed to utilize Patient Assistance Programs offered by pharmaceutical companies that provide medications to eligible individuals.

Participation in a P.A.P. requires a lengthy qualification, application and approval process for each medication requiring assistance. **EZMEDS USA does all the legwork on the patient's behalf, allowing them to enjoy a worry-free way to receive their medication and save substantial money!**

Here's how EZ MEDS USA works...

The patient never completes medication applications, EZMEDS USA does it all.

- ▶ EZMEDS USA interfaces with the physician(s) and program(s) as required on the patient's behalf.
- ▶ EZMEDS USA **automatically handles refills or renewals** to continue ongoing supply of medication.
- ▶ EZMEDS USA handles any and all changes to medication once notified by the patient.

How do patient's participate?

EZMEDS USA is driven and devoted to providing an easy, affordable solution to obtaining costly prescription medications. Our goal is to make it easy by offering a worry-free service that provides name-brand medications while relieving emotional and financial stress. In other words...

Minimum patient participation with maximum satisfaction.

Enrollment is simple: the patient completes the EZMEDS USA enrollment form and returns it to EZMEDS USA. If there are any questions, do not hesitate to call us!

Enrollment makes them a lifetime member.

EZMEDS USA determines eligibility based on the patient's personal information and prescription medication(s) requiring assistance. The patient is advised during the initial qualification call of all the medications they will be eligible to receive. Any required documentation (authorization forms, proof of income, etc...) not already received by EZMEDS USA is requested at this time.

EZMEDS USA does the rest! Upon receipt of all required documentation and fees, EZMEDS USA commences the application process:

- We complete the required application(s) and send them to the patient's prescribing physician(s) for their signature and prescribing information.
- Once the completed applications are received back from the physician(s), we submit them to the appropriate Patient Assistance Program(s).
- We monitor every step of the process for each program from start to medication delivery.
- EZMEDS USA automatically handles refills or renewals to continue an ongoing supply of medication.
